SUMMARY

Passionate and detail-oriented Web Developer with strong expertise in the MERN stack. I build fast, secure, and scalable web applications with clean code and intuitive UI. I thrive on solving real-world problems and delivering high-quality solutions that create real impact. Committed to continuous growth and excellence in every project I build.

SKILLS

Frontend: HTML, CSS, JavaScript, React

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Netlify

Concepts: REST APIs, Responsive Design, CRUD Operations, Authentication

PROJECTS

● Doc-Verse – Doctor Appointment System

- Built a full-stack web application where patients can book appointments with doctors.
- Doctors receive email notifications for new appointments.
- Features include user authentication, appointment management, and email integration.
- **Tech Stack:** React, Node.js, Express.js, MongoDB, MySQL, Nodemailer
- Deployed using Netlify (Frontend) and Render (Backend)

● Personal Portfolio Website

- Designed and developed a responsive portfolio website to showcase my skills, projects, and contact information.
- **Tech Stack:** React, CSS, JavaScript
- Deployed using Netlify

EDUCATION

Bachelor of Computer Applications (BCA)

JECRC University, Jaipur

📅 2024 – 2027

EXPERIENCE

Student Web Developer

- Developed responsive and interactive frontend applications using React.
- Built and integrated RESTful APIs with Node.js and Express.js.
- Worked with MongoDB and MySQL to design and manage databases.
- Followed best practices for clean code, version control, and project structure.

LANGUAGES

- English – Intermediate
- Hindi – Fluent
